

Herstory Master Index • 1974-2013

The Index was compiled with Word's alphabetical sort, which is a very literal, computer sort. Strictly alphabetical, so Mac--- comes before Mc--- and A, An or The would have counted in the sort and so they have been omitted from the starts of lines.

“Essay” is a catchall term for any prose written by SWCC that's not strictly a bio (aka “topic”).

Accents have been omitted from French names and words to facilitate sorting and for ease of converting the file to a different format.
